M. Abubakar

MERN Stack Developer

I'm a MERN Developer with 2 years of experience, specializing in React.js for front-end development. I also work with Next.js for web frameworks and React Native for mobile apps. I've completed a web development course, enhancing my skills for creating engaging and responsive applications.

EDUCATION

BS (Computer Science)
Government Science College

2022 - Present

Intermediate (Computer Science)
Government Islamia College

2019 - 2021

SKILLS & EXPERTISE

HTML5 | CSS3 | JavaScript | React.js | Redux Toolkit | Bootstrap or Tailwind CSS | Express.js | MongoDB | Next.js | React Native | Git Hub | Node.js | Deployment platforms (Vercel, Netlify)

MAJOR PROJECTS

Gym Management System (03/2023 - 04/2023)
- Web , Admin Panel
- At Develons, I designed and integrated the gym management system UI leveraging Redux Toolkit for efficient state management. This enhanced member management, scheduling, and reporting functionalities, ensuring smooth gym operations

Jobss.com.au (05/2023 - 11/2023)
- Web , Admin Panel , Job Provider Panel , Mobile Application
- Develop jobss.com.au at Develons , emphasizing excellent state management with Redux Toolkit. Implemented top-notch front-end for optimal UI/UX, streamlining creation processes and boosting platform engagement.

ERP (Enterprise Resource Planing) (11/2023 - Present)
- Web , Mobile Application , User-Panel
- At Develons, I collaborated on an ERP software project, specializing in inventory management, accounting, and HR modules. Utilized React.js and Node.js for frontend and backend, respectively, ensuring user-friendly interfaces and system efficiency.
